Summary

Diploma Computer Science and Engineering student with practical knowledge of C#, Java, HTML, CSS, JavaScript, and MS SQL. Interested in software development and problem-solving, with hands-on experience through technical training and a one-month internship at CodeAlpha. Eager to learn new technologies and contribute to real-world software projects.

Experience

Jun 2025 - PRESENT	● Trainee BTPS KANPUR - Currently undergoing technical training at BTPS. - Gaining practical exposure to technical processes and workplace practices. - Developing technical and professional skills through hands-on learning. - Learning to apply theoretical knowledge in a practical work environment.
May 2026 - May 2026	● Java developer CodeAlpha - Completed a one-month internship at CodeAlpha. - Gained practical exposure to software development and programming. - Worked on coding tasks and practical development activities. - Improved problem-solving and programming skills.

Education

2024 - 2027	● Government Polytechnic, Sikandara, Kanpur Dehat Diploma In Computer Science And Engineering • Diploma Currently pursuing a Diploma in Computer Science and Engineering with a focus on programming, software development, databases, and web technologies. Developing practical skills in C#, Java, HTML, CSS, JavaScript, and MS SQL through academic projects, training, and internship experience.
2023 - 2024	● DSM interCollege Yashoda Nagar kanpur Senior Secondary/ Intermediate • 12th Percentage - 84% Completed Senior Secondary education with 84% marks.
2021 - 2022	● DSM interCollege Yashoda Nagar kanpur High-School • 10th Percentage - 86% Completed High School education with 86% marks.

Certification

Java developer internship - CodeAlpha

[Certificate Link](#)

Successfully completed a one-month internship at CodeAlpha and gained practical exposure to software development, programming, and problem-solving.

Skills

- Html
 - CSS
 - C#
 - Java
 - Javascript
- Mssql

Projects

Student Grade Tracker management

May 2026 – May 2026

[Project Link](#)

Developed a Student Grade Tracker Management System to manage student academic records efficiently. The system allows users to add student details, enter subject marks, calculate total marks, percentage and grades, and view student performance. Implemented programming logic, data validation, and object-oriented programming concepts to create a simple and user-friendly application.

Achievements

Academic Achievements

Achieved 86% in High School and 84% in Intermediate, demonstrating consistent academic performance.
